

Compliance Command Center

The Compliance Dashboard gives operations teams a single command center for insurance risk. Open items, tenant-level status, and portfolio KPIs are surfaced in one view so teams can prioritize remediation instantly instead of hunting across spreadsheets and inboxes.

PRIMARY FEATURES

- Open Items queue with tenant-level actions
- Live compliance KPI panel (overall compliance)
- Aging buckets (expiring, deficient)

OPERATIONAL CALLOUTS

- Immediate "missing certificate" visibility
- Direct "waive" action routing
- Timestamped data freshness
