

The screenshot displays the 'COI Tracker Insurance Compliance' application. On the left is a sidebar with a 'Main Menu' (Certificates: 5, COI Review, Mailroom), 'Navigation' (Properties: 3, Tenants: 12, Reports, Import Data, Settings), and a client selection section for 'Farworth Properties, Inc.' with a 'Switch client' button. The main area is titled 'Report Builder' and contains several field selection panels:

- Tenant Information** (Select All): ☒ Business Name, ☒ Unit Number, ☒ Tenant Type, ☒ Status, ☐ Lease Start Date, ☐ Lease End Date.
- Property Information** (Select All): ☒ Property Name, ☒ Street Address, ☐ City, ☐ State, ☐ ZIP Code, ☐ Property Type.
- Contact Information** (Select All): ☐ Contact Name, ☐ Email, ☐ Phone.
- Compliance Status** (Deselect): ☒ Compliance Status, ☒ Property Compliance Score (%), ☒ Overall Compliance Score (%).
- Insurance Certificate Details** (Select All): ☒ Insurance Company Name, ☐ NAIC Code, ☐ Policy Number, ☐ Effective Date, ☒ Expiration Date, ☒ General Liability (Each Occurrence), ☒ General Liability (Aggregate), ☒ Endorsements (AI, WoS, PNC), ☐ Additional Insured (Yes/No), ☐ Waiver of Subrogation (Yes/No), ☐ Primary & Non-Contributory (Yes/No), ☐ Certificate Holder.
- Excess/Umbrella Coverage** (Select All): ☐ Excess/Umbrella Limit.
- Validation & Deficiencies** (Select All): ☒ Validation Status, ☐ Deficiencies.

At the bottom left, it shows the user is 'Dev User' with email 'dev@axiomapp.com'.

Report Builder Field Selection

The report field selector gives teams control over exactly what each export communicates, from summary metrics to granular validation evidence. This supports tailored reporting for operations, ownership, and compliance audits.

PRIMARY FEATURES

- Field groups for tenant/property/contact/certificate data
- Select-all/deselect and granular field control
- Validation/deficiency metric selection

OPERATIONAL CALLOUTS

- Purpose-built exports by audience
- Balance between summary KPIs and detailed evidence
