

Import Data

Import properties and tenants from spreadsheets, or upload COI certificates in bulk.

**Properties**
CSV import

 **Tenants**
Excel or CSV

 **Batch COI Upload**
PDF or images

1. Download template
CSV format with required columns

 **Download**

2. Fill in your data

- Required: **Property Name** and **Address**
- Property Type: retail, office, industrial, mixed_use, other
- Save as CSV (File → Save As → CSV)

3. Upload your file

Drag & drop or click to browse
CSV files only

Or paste from Excel

Paste tab or comma-separated data here (first row = headers: Property Name, Address, City, State, etc.)

Import pasted data

Bulk Import & Portfolio Onboarding

Import Data accelerates onboarding by turning existing spreadsheets into structured compliance records. Teams can launch quickly with guided templates, paste workflows, and batch ingestion pathways.

PRIMARY FEATURES

- CSV import templates and instructions
- Drag/drop ingestion and Excel paste support
- Multiple import modes (properties, tenants, batch COI)

OPERATIONAL CALLOUTS

- Reduced setup friction for new portfolios
- Structured ingestion for cleaner downstream operations
