

INSURANCE MANAGER

Your program in one workspace.

Faster intake. One source of truth. Broker-ready communication.

All coverages in one view

Policy summary, limits, premiums, and exposures — no spreadsheet archaeology

PRIMARY FEATURES

- GL, Auto, Property, WC, and Umbrella on one screen
- AI or Manual intake — same normalized vault either way
- One-click exposure workbooks and BOR letters

SPEAKER NOTE

Opens on program visibility: every line, carrier, limit, and premium in minutes.

LINE OF COVERAGE	EFFECTIVE DATES	POLICY #	CARRIER	LIMITS	EXPOSURES	PREMIUM	ACTIONS

PRODUCT FRAME

Your process. Your controls.

Your process. Your controls.

Schema-guided manual import when you want prompts + JSON, not black-box extraction

PRIMARY FEATURES

- Download per-LOB instructions matched to Vault JSON schema
- Run your agent on policy PDFs; upload .txt or .json per line
- Same Portfolio Overview and exports as full AI mode

SPEAKER NOTE

Enterprise buyers see hybrid control — AI speed without losing auditability.

PRODUCT FRAME
Detailed exposure views

Detailed exposure views

GL locations, NHTSA VIN validation, and WC class codes — one session, underwriter-ready

PRIMARY FEATURES

- GL locations and exposures in sortable, exportable tables
- NHTSA VIN Check: strikethrough errors, one-click accept corrections
- WC class codes, basis, and amounts by state with grand total payroll

SPEAKER NOTE

Consolidated exposures story: GL grid, Auto VIN check, WC class codes with grand total.

Broker Connect

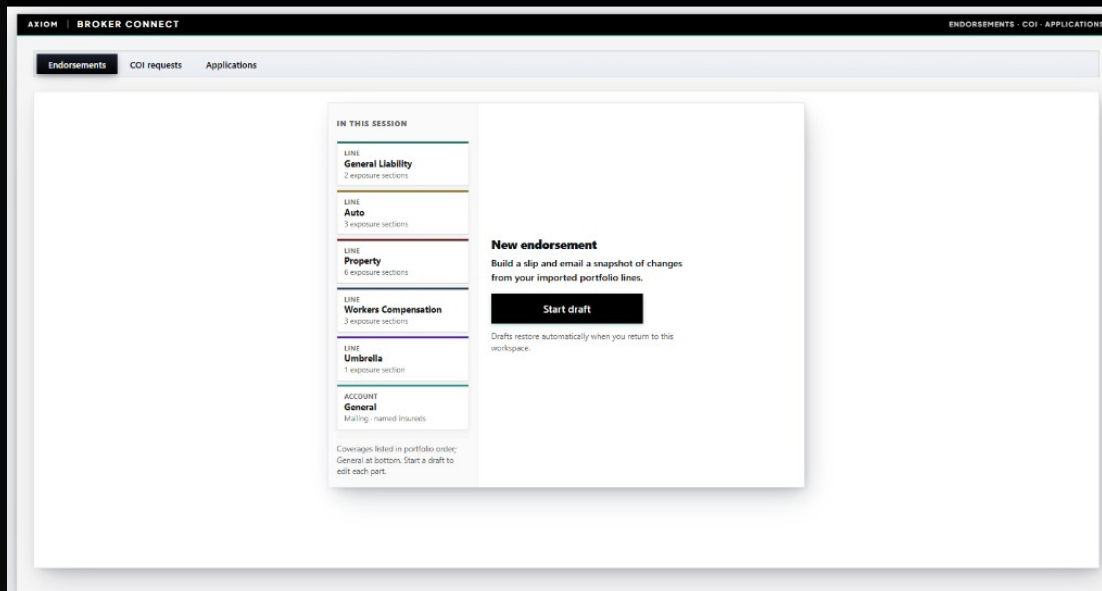

One endorsement transaction — edit, stack, confirm once, send once

PRIMARY FEATURES

- Session rail lists every line; start one draft, stack every change
- Edit GL, Auto, Property, WC, Umbrella, and Account tables inline
- Diff-style review before send — nothing vague in the request
- Confirm endorsement: parts count, slip PDF, narrative, Confirm & send email

SPEAKER NOTE

Full Broker Connect flow: New endorsement → inline edits → stack changes → confirm & send.

Insurance email inside the workflow

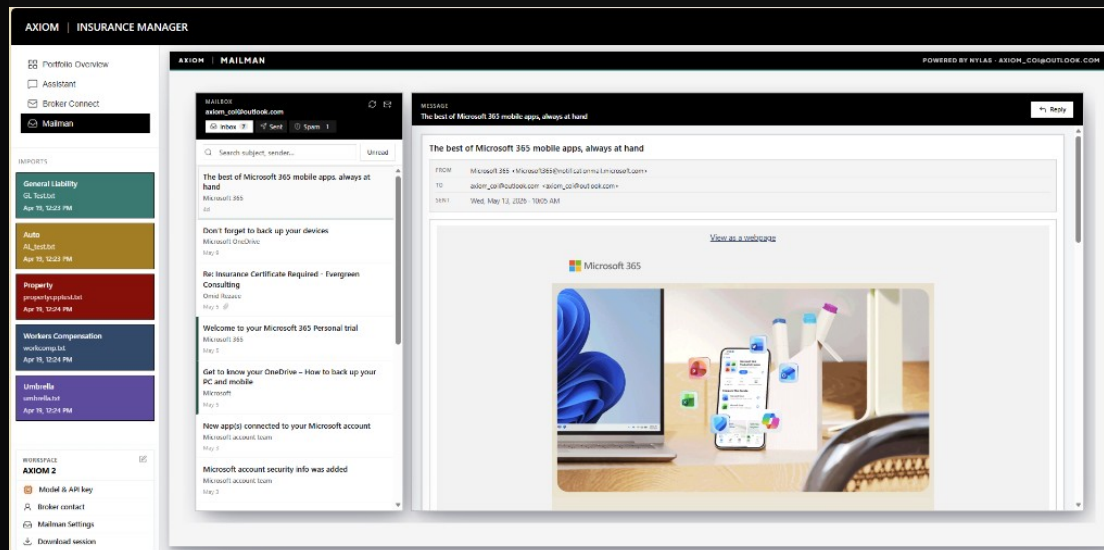

Powered by Nylas · Outlook mailbox

PRIMARY FEATURES

- Inbox, Sent, Spam with search and unread filter
- COI thread visible beside portfolio imports sidebar
- POWERED BY NYLAS · enterprise Outlook sync

SPEAKER NOTE

Header: POWERED BY NYLAS · axiom_coi@outlook.com. Show COI thread in list.

Compose without leaving AXIOM

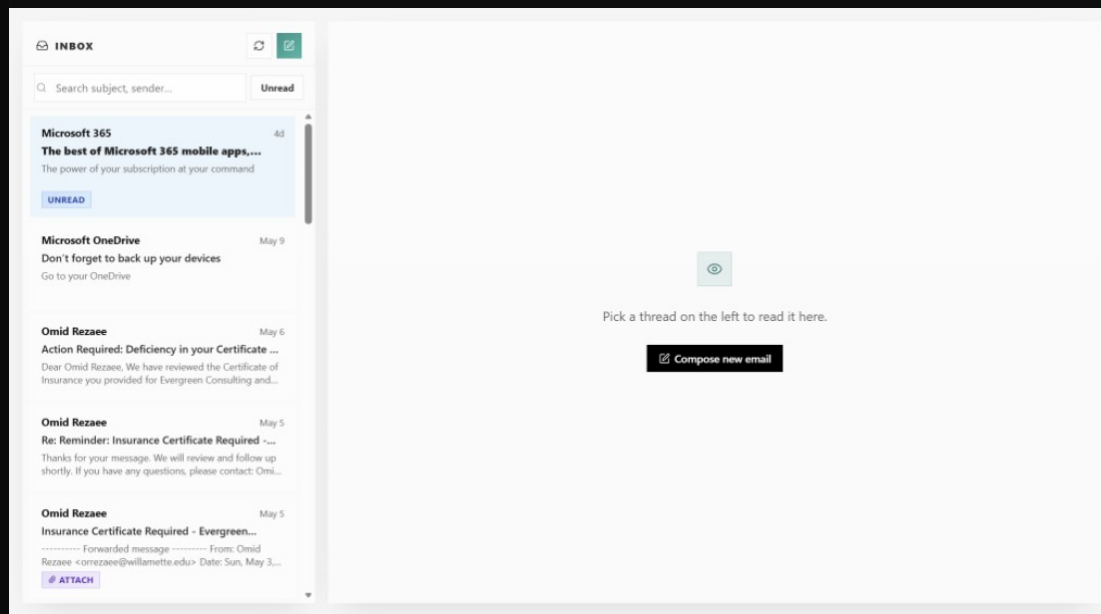

Reply, attach, tag — broker traffic stays traceable

PRIMARY FEATURES

- Pick a thread or Compose new email
- Integrated with Broker Connect outbound (COI-1 · END-1 tracker)
- Enterprise-grade sync via Nylas

SPEAKER NOTE

Empty state with dashed panel and Compose new email button.

Insurance operations with intelligence built in

AXIOM Insurance Manager turns policy PDFs and email threads into one auditable portfolio — then moves COIs, endorsements, and applications through Broker Connect and Mailman on infrastructure you already trust.
